4. First aid measures			
FIRST AID MEASURES			
Eye Contact	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.		
Skin contact	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advise.		
Inhalation	If overcome by vapor, move person to fresh air. If person is not breathing, call 911 or an ambulance, then provide artifical respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advise.		
Ingestion	Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.		
Most important symptoms and effe	ects, both acute and delayed		
Symptoms	Acute: Prolonged inhalation of concentrated vapor or mist may cause headaches, dizziness and nausea. Prolonged and repeated contact with skin may cause irritation and reddening. Contact with eyes causes irritation.		
Indication of any immediate medica	al attention and special treatment needed		
Note to physicians	Contains petroleum distillates, do not induce vomiting because of aspiration neumonia hazard.		
5. Fire-fighting measures			
<u>Suitable extinguishing media</u> Dry chemical, CO2 or water spray.			
Unsuitable extinguishing media	a Caution: Use of water spray when fighting fire may be inefficient.		
Specific hazards arising from the chemical This product is under pressure. Water spray may be used to cool cans in the vicinity of fire or excessive heat to prevent the explosion of the cans.			
Hazardous combustion products Thermal decomposition may yield gases like nitrogen oxides, carbon monoxide and carbon dioxide.			
Explosion data Sensitivity to Mechanical Impac	ct Contents under pressure. This product is extremely flammable. Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static		
Sensitivity to Static Discharge	electricity). Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity).		

<u>Protective equipment and precautions for firefighters</u> As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

	6. Accidental release measures	
Personal precautions, protective	equipment and emergency procedures	
Personal precautions	Use in well-ventilated area ONLY. NOTICE: Reports have associated repeated and prolonged occupational over exposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. To avoid breathing vapor or spray mist open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches, or dizziness, increase fresh air or wear an appropriate, properly fitted respirator (NIOSH approved), or leave the area. NOTE: Follow respirator manufacturer's instructions carefully for respirator use.	
For emergency responders	Remove all sources of ignition.	
Environmental precautions		
Environmental precautions	See Section 12 for additional Ecological Information.	
Methods and material for contain	nment and cleaning up	
Methods for Containment	Provide adequate ventilation to area being treated. Soak up spills with chemically inert, absorbent material.	
Methods for cleaning up	Clean contaminated surface thoroughly.
