1. Identification of the Substance/Preparation and of the Company/Undertaking

**Product Identifier**

**Product name**  
CHAMPION SPRAYON CHEWING GUM & CANDLE WAX REMOVER

**Chemical name**  
5-5615

**Other means of identification**

**Product code**  
FG 438-5165-6GHS

**Synonyms**  
Chewing gum and candle wax remover.

**Recommended use of the chemical and restrictions on use.**

**Recommended Use**  
To remove chewing gum and candle wax.

**Uses advised against**  
See directions for use on product’s label.

2. Hazards Identification

**Classification**

<table>
<thead>
<tr>
<th>FLAMMABLE AEROSOLS</th>
<th>Category 1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gases Under Pressure</td>
<td>liquefied gas</td>
</tr>
</tbody>
</table>

**Label Elements**

**DANGER**

EXTREMELY FLAMMABLE AEROSOL  
Contains gas under pressure; may explode if heated

Liquid contents may cause frostbite on contact with skin. The product contains no substances which at their given concentration, are considered to be hazardous to health

| Appearance | Non visible gas | Physical State | Aerosol | Odor | Sweet, petroleum odor |
Precautionary Statements - Prevention
Keep away from heat, sparks, open flames and hot surfaces. — No smoking
Pressurized container: Do not pierce or burn, even after use
Do not spray on an open flame or other ignition source

Precautionary Statements - Storage
Protect from sunlight. Store in a well-ventilated place
Do not expose to temperatures exceeding 122 °F (50 °C)

Hazards not otherwise classified (HNOC)
Other Information
0% of the mixture consists of ingredient(s) of unknown toxicity

3. Composition/information on Ingredients

* The exact percentage (concentration) of composition has been withheld as a trade secret.

4. First aid measures

FIRST AID MEASURES

Eye Contact
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Skin contact
In case of contact, immediately flush skin with plenty of water. Wash skin with soap and water. If irritation develops, consult a physician.

Inhalation
If overcome by vapor, move person to fresh air. If person is not breathing, call 911 or an ambulance, then provide artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advise.

Ingestion
Ingestion from an aerosol product is unlikely to occur.

Most important symptoms and effects, both acute and delayed

Symptoms
Prolonged contact with the skin may cause severe freeze burns. Over inhalation of vapor or mist may cause anesthetic effects, headaches, dizziness and nausea.

Indication of any immediate medical attention and special treatment needed

Note to physicians
None needed.

5. Fire-fighting measures

Suitable extinguishing media
Dry chemical extinguisher (B-C), water.
Unsuitable extinguishing media  Caution: Use of water spray when fighting fire may be inefficient.

Specific hazards arising from the chemical
Vapors are heavier than air and may travel along the ground and be ignited by pilot lights, other flames, sparks, heaters, smoking or other ignition sources.

Hazardous combustion products  Thermal decomposition may release carbon monoxide and carbon dioxide.

Explosion data
Sensitivity to Mechanical Impact  Contents under pressure, keep away from heat and open flame.
Sensitivity to Static Discharge  Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity).

Protective equipment and precautions for firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal precautions  Use with adequate general or local exhaust ventilation.
For emergency responders  Remove all sources of ignition.

Environmental precautions

Environmental precautions  See Section 12 for additional Ecological Information.

Methods and material for containment and cleaning up

Methods for Containment  Provide adequate ventilation. Avoid sources of ignition.
Methods for cleaning up  Clean contaminated surface thoroughly.

7. Handling and Storage

Precautions for safe handling

Advice on safe handling  Avoid contact with skin. Avoid getting spray into eyes. Do not deliberately inhale vapor or mist. Do not contaminate food or food handling surfaces. Keep out of reach of children.

Conditions for safe storage, including any incompatibilities

Storage Conditions  Store in a cool, dry place away from heat and open flame. Keep out of reach of children. AEROSOL STORAGE LEVEL III (NFPA-30B).
Incompatible Materials  Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity).

8. Exposure Controls/Personal Protection

Control parameters

Exposure guidelines  See occupational exposure limits listed below.

<table>
<thead>
<tr>
<th>Chemical name</th>

<tr>
<td>Propane</td>
<td>See Appendix F: Minimal</td>
<td>TWA: 1000 ppm</td>
<td>IDLH: 2100 ppm</td>
</tr>
</tbody>
</table>
**Appropriate engineering controls**

**Engineering controls**

Use with adequate general or local exhaust ventilation.

**Individual protection measures, such as personal protective equipment**

- **Eye/face Protection**: Conventional eyeglasses to guard against splashing.
- **Skin and Body Protection**: Rubber, vinyl or household type gloves required.
- **Respiratory protection**: Use in a well-ventilated area ONLY. WHEN USING INDOORS, KEEP WINDOWS AND DOORS OPEN UNTIL FUMES DISSIPATE.

**General hygiene considerations**

Wash hands thoroughly after handling.

### 10. Stability and Reactivity

**Reactivity**

---

---
Chemical stability
Stable.

Possibility of hazardous reactions
Temperatures above 130 °F may cause cans to burst with force.

Hazardous polymerization
Hazardous polymerization does not occur.

Conditions to Avoid
Temperatures above 122 °F (50 °C).

Incompatible Materials
Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity.

Hazardous decomposition products
Thermal decomposition may yield gases like carbon monoxide and carbon dioxide.

11. Toxicological Information

Information on likely routes of exposure

Product Information
This product has not been tested as whole. See below for information on ingredients.

Inhalation
See data below.

Eye Contact
Avoid contact with eyes.

Skin contact
Avoid contact with skin.

Ingestion
Ingestion from an aerosol product is unlikely to occur.

Information on toxicological effects

Symptoms
Over inhalation of vapor or mist may cause anesthetic effects, headaches, dizziness and nausea.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation
Prolonged contact with the skin may cause severe freeze burns.

Serious eye damage/eye irritation
corrosivity
Can cause severe eye irritation, redness, tearing and possible freeze burns.
sensitization
No a skin sensitizer.
Germ cell mutagenicity
No information available.
Carcinogenicity
Not known chronic effects based on available data. None of the ingredients present in excess of 0.1% are listed as carcinogenic by NTP, IARC or OSHA.

Reproductive toxicity
No information available.
STOT - single exposure
No information available.
STOT - repeated exposure
No information available.
Aspiration Hazard
Not applicable.

Numerical measures of toxicity - Product Information
Unknown acute toxicity
0% of the mixture consists of ingredient(s) of unknown toxicity

The following values are calculated based on chapter 3.1 of the GHS document
ATEmix (inhalation-gas) 2293333 mg/l
ATEmix (inhalation-vapor) 658 mg/l

12. Ecological Information

ecotoxicity

Persistence and degradability
No information available.

Bioaccumulation
No information available.

<table>
<thead>
<tr>

</tbody>
</table>

Other adverse effects
No information available

13. Disposal Considerations

Waste treatment methods

Disposal of wastes
Dispose of in accordance with federal, state and local regulations.

Contaminated packaging
Pressurized container: Do not pierce or burn, even after use. Do not puncture or incinerate container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

14. Transport Information

Note:
Cartons marked with: Inside containers comply with prescribed specifications.
